FAX 573-335-0824

Dear Valued Customer:

Mid-South Steel Products, is pleased to announce the opening of its new branch office in the Springfield, Missouri area. We have recently purchased the assets of C.S.C., formerly Carl's Service Co., located in Diggins, MO., and effective December 1, 2001, will be open for business as usual to help you with your petroleum equipment needs. All former C.S.C. employees are now employees of Mid-South Steel Products, and our location and phone numbers will remain the same. Frank Carlile has accepted the position of Branch Manager, as Frank is well qualified to help you with any of your equipment requirements. Earl Crawford will continue as manager of our outside sales team, and will carry on to give the fine service and attention you have come to expect.

Mid-South Steel Products, Inc. was established in 1954 in Cape Girardeau, with locations in Cape Girardeau, St. Louis, Paducah, KY, and now the Springfield area, and we are the only Missouri Company that can manufacture steel storage tanks, do complete installations, and have a full 24/7 service department to serve our customers' requirements. We look forward to carrying on a relationship that has been a long standing tradition, by serving the customer first, delivering quality service and quality products at fair prices.

If you have any questions or requirements, please feel free to contact Frank Carlile at:

Mid-South Steel Products, Inc
507 Plaza Drive
PO Box 94
Diggins, MO 65636
